PROFESSIONAL SUMMARY

Aspiring Machine Learning Engineer and software professional with strong expertise in Python, SQL, TensorFlow, and data-driven model development. Experienced in building predictive models, multi-label text classification systems, and AI-powered applications using Streamlit and cloud APIs. Demonstrated ability to analyse complex datasets, implement explainable AI techniques (LIME, SHAP), and deliver scalable solutions. Passionate about applying emerging AI technologies to solve real-world problems.

EDUCATION

The NorthCap University

Master of Computer Application (M.C.A)
CGPA: 8.07

2024 – Present
Gurgaon, Haryana

Guru Gobind Singh Indraprastha University

Bachelor of Computer Application (B.C.A)
CGPA: 8.3

2021 – 2024
Janakpuri, Delhi

EXPERIENCE

Machine Learning Intern, OpenSense Labs

May 2025 – July 2025

- Built and evaluated machine learning models to improve prediction accuracy and performance.
- Applied SHAP and LIME for model interpretability and explainable AI.
- Performed bias analysis to ensure fair and reliable model behaviour.
- Collaborated using JIRA and created reports/dashboards in Power BI.

In-office

PROJECTS

Green Gauge | October 2025 – December 2025

- Built a Streamlit-based carbon tracker for real-time footprint analysis and visualization.
- Implemented data analytics and predictive insights for sustainability monitoring.
- Created an interactive dashboard for user-friendly decision support.

Campus Placement Predictor | August 2024 – September 2024

- Trained and optimized classification model using scikit-learn to forecast placement probability.
- Applied data cleaning, encoding, and scaling techniques to enhance model performance.
- Evaluated models using accuracy, precision, recall, and confusion matrix.

Flight Price Prediction | April 2024 – May 2024

- Trained regression models using scikit-learn and XGBoost to forecast airline ticket prices.
- Handled missing values, encoding, and scaling for robust model performance.
- Evaluated models using MAE, RMSE, and R^2 metrics.

SKILLS

- Languages & Fundamentals:** Python, C++, SQL, DSA
- Libraries & Databases:** TensorFlow, Pandas, Numpy, Seaborn, scikit-learn, Model- Evaluation
- Cloud:** Microsoft Azure, AWS(Basics).
- Platforms & Tools:** Git, JIRA, Streamlit, Jupyter Notebook, VS Code, Power BI, Tableau
- Soft Skills:** Problem-Solving, Project Management, Teamwork, Adaptability, Flexibility.

CERTIFICATIONS

- Coding Ninja Certified:** Introduction to C++ – [\[Credential ↗\]](#)
- Coding Ninja Certified:** Data Structure in C++ – [\[Credential ↗\]](#)
- AWS Certified:** Cloud Foundations (Training Badge) – [\[Credential ↗\]](#)
- Microsoft Certified:** Azure AI Fundamentals (AI-900) – [\[Credential ↗\]](#)
